

AT LAST, ST JOHN'S BEAUTIFUL TOWER IN ITS RENEWED GLORY - BASKING IN THE WINTER SUNSHINE!

'Our thanks and prayers are extended to everyone involved in the refurbishment of St John's, and especially to

- **the staff of the LTM Group** - the stone masons, the scaffolders, the painters, and the decorators - who have been working so diligently for the past eight months through hail, rain and snow.
- **Gail Mason**, the on-site Supervisor, and **Chris Prentice**, our Project Manager, both of whom have gone the extra mile with both flexibility and generosity.

However, we could have never arrived at this point without the help and support of our Parishioners, the local community and the many generous friends of our Parishes – far and wide

We are also indebted to Historic Environment Scotland and the National Churches Trust for their grants.

The pandemic has cast a shadow over all of us for the past 22 months, but we now look forward with optimism to opening wide the church doors in thanksgiving.

Fr Jock and the Fabric Team
